ABOUT ME

I'm 32 years old with over six years of experience as a software developer, primarily focused on frontend development, along with expertise in UI/UX design and photography. I have an excellent command of verbal and written English.

I currently live in Belgrade. Passionate about self-improvement, I love exploring new technologies, tackling challenges, and putting in great effort to deliver high-quality products.

WORK EXPERIENCE

2021 FRONTEND DEVELOPER

Present [Geta Digital](#)

Actively developing web applications with React, Next.js, TypeScript, and CSS, contributing to both small and large-scale projects. Specializing in building scalable eCommerce solutions, with a strong focus on integrating headless CMS platforms to deliver seamless and efficient user experiences.

2019 FRONTEND DEVELOPER

2021 [Eximius Solutions](#)

Worked on frontend development using JavaScript, jQuery, React, PHP, HTML5, CSS3/SCSS, Bootstrap, and WordPress. Contributed to responsive web design, AJAX requests, and version control with Git. Participated in design and code reviews, collaborated with product managers and designers on technical requirements, and conducted website analysis.

2019 WEB DEVELOPER

2019 [Link Group](#)

Responsible for designing webpage layouts, updating websites, and resolving code issues to ensure optimal performance and user experience.

2016 WEB DEVELOPER | GRAPHIC DESIGNER | PHOTOGRAPHER

Present
Freelance

Working in web development, graphic design, and photography, combining technical skills with creativity. I've designed and developed websites, web apps, and mobile apps, created engaging graphics, and captured high-quality photos, ensuring each project meets both functional and aesthetic needs. My diverse experience allows me to create tailored solutions that enhance user experience and deliver impactful visual content.
